# MICROSOFT DYNAMICS 365

As many of you know, we have begun the process of converting from Lightspeed to Microsoft Dynamics. We seek to constantly improve our systems, and we are excited about the increased capabilities and improved functionality that this conversion will allow.

## **UPDATE FROM THE PROJECT TEAM**

The Microsoft Dynamics Transition Project will be separated into a 6-phase approach: Plan, Design, Build, Test, Train, Transition. Our project team has been working hard on the first two phases over the last few months and is almost ready to move into the "Build" phase.

We have hired a team of experts to lead us in the conversion process alongside our internal team.

We will keep you in the loop as we enter each new phase and ensure that everyone is thoroughly trained and prepared before the launch of the new product.

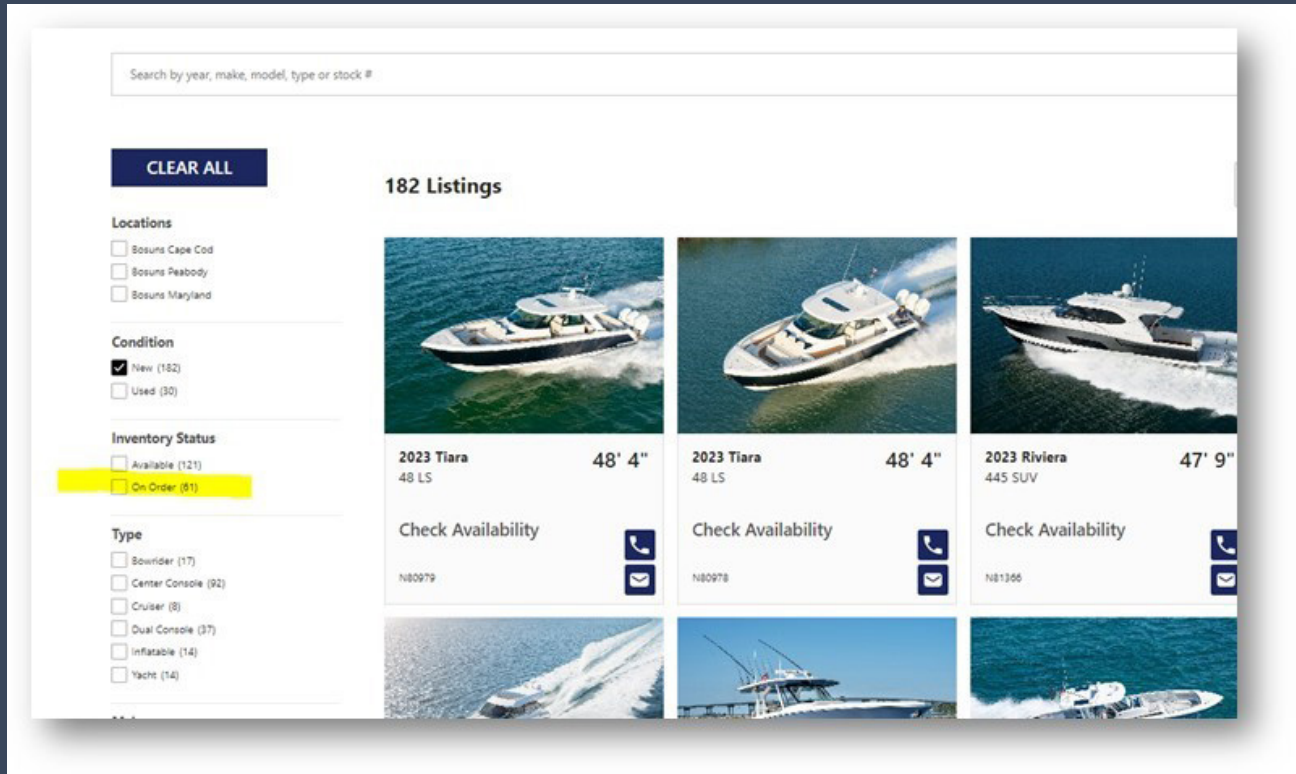

## **WHAT TO EXPECT WITH DYNAMICS**

- ✓ Integration with CRM
- ✓ Improved Reporting
- ✓ Enhanced Infrastructure to Support Current and Future Growth

# STORE WEBSITE UPDATES

## “On Order” Boats

The ability to filter your website inventory by “On Order” boats has been added back to your store websites! This will allow customers to find exactly what they’re looking for more easily.

## WHOM TO CALL

Now that all of our websites are launched, our support structure will return to normal:

### SOS

For any CRM questions or issues, please email [sos@onewatermarine.com](mailto:sos@onewatermarine.com).

VS

### MARKETING SPECIALIST

For any questions or issues with your website, please contact **your regional marketing specialist.**

# NEW PAYLOCITY FEATURE

**Payroll week just got easier!** Paylocity now allows employees to correct their own time cards! If you forget to clock in or out, you can simply adjust your time card yourself and submit it to your manager for approval.

## Information About Employees Adjusting Time Cards

Employees will have the ability to submit a request to add, edit, or remove date/time of the punch, punch cost center(s), and notes on the punch. This should be done under the "Time & Labor" tab in the "Activity" tile.

The screenshot displays two side-by-side panels. The left panel, titled 'Punch', shows a 'Clocked Out' status at 18h:43m. Below this, it indicates the 'Last Punch' was on 03/28/2022 at 05:07 PM, with a 'Cost Center' of 10 - GENERAL MANAGER. A large digital clock displays 11:50:38 AM, EST. There are buttons for 'Clock In', 'Clock In + Transfer', and a menu icon. A text input field for 'Add a Note' is at the bottom. The right panel, titled 'Activity', has an 'Add a Punch' button. It features tabs for 'Errors (3)', 'Recent Activity', 'Information', and 'Corrections'. A table lists three 'Clock Out' errors from 03/27/2022, 03/09/2022, and 03/03/2022, each with the information 'Fill in Missing Punch'. A 'View All Errors' button is at the bottom.

## Information About Managers Approving Time Card Changes

The screenshot shows the 'Time Card Approvals' dashboard. At the top, there's a navigation bar with 'Time & Labor' selected, and links for Home, Employees, Payroll, Reports, and Configuration. Below this is a secondary navigation bar with icons for Home, Time Card, Schedules, Time Off Calendar, and Time Card Approvals. The main content area includes a 'Filter' dropdown and a 'Reset' button. A blue banner asks, 'Looking to increase your employee engagement? Check out our Tim...'. Underneath is a 'Quick View' section with three cards: 'Insights' with a bar chart icon, 'Time Card Corrections' with the number '11' circled in red, and 'My Employees' with the number '1823'. At the bottom, there's an 'Insights' section with a bar chart icon and a 'Total Hc' label.

Supervisors/Administrators will have access to a "Time Card Corrections" tile on the Supervisor Dashboard under "Time & Labor".

From this tab, supervisors can access employee notes on the punch, edit punches, see details of the employee requests, and approve or deny multiple requests at the same time.

**Contact HR**

## SunDance Old Bahama Bay Rendezvous

SunDance Marine Jensen Beach had an amazing crossing over to Old Bahama Bay in West End this weekend. They had 16 boats make the crossing with approximately 65 customers in attendance. Customers enjoyed swimming, feeding the stingrays, and learning how to shell and clean a conch. To end the trip, customers enjoyed a lobster buffet and Junkanoo band performance!

# UPCOMING VIRTUAL TRAINING SEMINAR

## Technician Guild Live Panel

*with the 7 members of the Technician Guild*

**Wednesday, 7/27, 9:30 a.m. ET**

THE 7 MEMBERS OF THE ONEWATER MARINE TECHNICIAN GUILD WILL JOIN A LIVE PANEL TO SHARE BEST PRACTICES THEY USE AT THEIR STORES AND ANSWER LIVE QUESTIONS FROM ATTENDEES.

» REGISTER

## CUSTOMER REVIEW

### *Capt. Karl Neiger and Central Marine*

Can't thank Karl and crew Central Marine enough for how professional they were through my repower. I'm a charter captain and have purchased several engines throughout the years from them. With supply chain issues and limited inventory in all aspects of our new, hopefully not too much longer norm, I expected a wait. Karl kept me in the loop and had consistent updates on the status of my Yamaha F70. What put my incredibly positive experience into a different level was how Karl handled an unexpected issue, which was at no fault of anyone at Central Marine...Thank you Karl (Yamaha7man) and all the others behind the scenes at Central Marine for getting me back on the water. TRUE PROFFESIONALS!!!!!!!!!!!!!!

Capt. Scott Mac Calla
